Two-state theft rampage

Stop 16-year olds' swiping spree

by GLORIA DAVIS

Two Antioch youths went on a burglary spree that started at 9 a.m., on Monday morning, Oct. 18, and ended at 5:15 p.m., on Tuesday, Oct. 19, when they were picked up because of their suspicious actions by the Union Grove Police.

The two 16-year-old boys were stopped by the police as they were heading on foot towards Milwaukee on Rte. 45.

According to Antioch Police Lt. Tom Fisher, he was called by an informant at 2 p.m., on Monday. The informant showed him where two bicycles were hidden in a ravine on Grass Lake Rd. A check showed that the bikes had been stolen from the Antioch Upper-Grade School that morning.

Reports of theft then started coming into the Antioch Police Dept. A 10-speed bike was stolen from the garage of a home in Sequoit Terrace. Another home was burglarized in Sequoit Terrace and there were three more reports of two suspiciously acting boys ringing doorbells in that area.

One resident reported that the youths had already entered his home when he was delayed in answering the doorbell.

A later report came in that an attempt to break into the change machine at Bernie's Car Wash on North Ave. had been made and Dana's Snack Shack, at the same location, was burglarized sometime between Monday evening and Tuesday morning.

Burglars were scared away while attempting to enter the State Line Mini-Mart.

Sometime around midnight the J and L Gas Station on Rte. 83 in Wisconsin, was broken into and cigarettes were taken. Then Spring Valley Country Club was broken into and a large amount of cash was taken.

Fisher said that by this time the Antioch Police knew who they were looking for for questioning on the burglaries because of the identification by the informant, that helped recover the first two bikes, and the fact that the same two boys, so identified, had been reported as runaways by their parents on Tuesday morning.

The Antioch Police picked the boys up in Wisconsin and while being questioned they

admitted to all the burglaries and also the burglary of a house on Ida St., on Friday, Oct. 15.

The boys were then placed in the custody of Lake County juvenile authorities in the Hulse Juvenile Home in Waukegan until their judgment hearing, set for Friday, Oct. 22.

One of the youths was already due to appear in Lake County Juvenile Court, also on

Friday, Oct. 22, on two other charges of burglary.

According to Assistant State's Atty. Jim Booras both boys appeared before Lake County Juvenile Judge Charles Scott.

One was charged with 21 counts of burglary and theft and one count of criminal damage to property. The other faces nine counts of burglary and theft.

Both are set to appear for trial in Lake County Juvenile Court, in front of Scott, at 10 a.m. on Friday, Nov. 5. Assistant State's Atty. Robert Ricca will prosecute the cases.

Happy Birthday Jim! McMillen fetes 80 years

by GLORIA DAVIS

One of Antioch's favorite and most well-known sons, James McMillen, celebrated his 80th birthday on Saturday, Oct. 23.

Crowds of well-wishing friends and relatives attended the party held at McMillen's home.

McMillen, who has lived in Antioch for more than 47 years, has had a busy 80 years full of successful athletic endeavors that were punctuated by service in the U.S. Navy for four years as a lieutenant commander during the second world war.

Then he became active in politics and local business affairs, that included engineering tossed in for good measure.

One of McMillen's claims to athletic fame is the fact that he was captain of the University of Illinois football team in 1923, a team spearheaded by the famous Red Grange.

After being named All American for his prowess on that team, he played with the Chicago Bears from 1924 to 1928.

Wrestling was also a love of his and he made a name for himself as he starred on the professional mats for 26 years.

McMillen operated a concrete business in Antioch from 1945 to 1958 and was the village's mayor for six years, holding office from 1952 to 1958.

Adding field engineering work done for the Illinois Dept. of Conservation in various departments, from 1958 to 1978, he finished his career working with the Lake County Forest Preserve District.

Just about every local organization has had his name on its roster over the years including, the Masons, American Legion, V.F.W., Lake County Farm Bureau, Antioch Fire Dept., Antioch Rescue Squad, Antioch Township High School Board, the Antioch Lions Club, and he was a director on the board of the State Bank of Antioch.

Paraphernalia cause dies

The final note on an almost three-year-long law suit, filed against the village of Antioch by the owners of Levas T-Shirts, on Main St., has been sounded.

According to Antioch Village Atty. Ken Clark, Pete and Ernie Levas officially notified him that the suit had been dropped.

The Levas brothers instigated the lawsuit in March of 1980 after the village passed an ordinance prohibiting the sale of drug paraphernalia in the village limits.

The brothers contended that the ordinance was aimed directly at them since it was passed after they opened their business and the board gave them an operating license fully aware that they intended to sell drug paraphernalia.

The village board contended that they had only been informed that the store would sell t-shirts and allied products.

The main issue, that of a municipal government's right to ban the drug paraphernalia sale was far more widespread than just the village of Antioch. It became a nationwide issue when the U.S. Supreme Court ruled in the municipalities' favor.

The Levas case went through county and state courts.

Good news in The News

Trick or treat

Trick or treat hours for the village of Antioch have been set for 1 to 5 p.m., on Sunday, Oct. 31.

Police Chief Cuck Miller said that parents should instruct children on how to safely cross streets and also not to eat any of the treats until the parents can inspect them at home.

Trick or treating in groups or with parents, especially where younger children are concerned, is the safest way to celebrate Halloween, added Miller.

Need leaders

Antioch has a superfluous amount of boys that want to be Cub Scouts this year, which necessitates the need for three new den mothers and some assistants.

If you can help Antioch Cub Scout Pack 192, call Donna DePasse, (312) 395-4873.

Scouts place third

Antioch's Troop 92 Boy Scouts of America placed third in a field of 18 patrols during the Northeastern Illinois Council Lakes Dist. Camporee.

The boys scored 448 out of a possible 500 points on 10 events that measured their leadership, cooperation, and problem solving skills in simulated crisis situations.

Some events were flash flood escape, log lift, blind fold first aid, and crossing high voltage wire.

Troop 92's Viking Patrol took two first place, three second place and three third place ribbons in the 10 events. In addition, the patrol won the Confidence and Cooperation Award and the Campsite Inspection Award.

Senior Patrol Leader Dale Gade took overall first place as event judge while the assistant senior patrol leader took first in confidence and cooperation.

Other Scouts who participated were Mark and Matthew Aschbacher, Doug Barr, Alec Kauffman, John Lundgren, Bob Paschke, and Greg Vise. The Scout Leaders were Bernie Dost, Harold Clark and Rich Jaschob.

Members of Antioch's VFW Post and Troop 92 are joining forces to collect and sort newspapers at the VFW trailer by the sawmill in Antioch.

Area residents are encouraged to bring their newspapers to the trailer any time. Cardboard, books and magazines can be used; papers need not be tied. The Scouts will conduct a paper drive on Nov. 13. For pick up service call the Antioch Scout House, (312) 395-2191, between 9 and 11 a.m., on Nov. 13.

Get 68° for the price of 60°.

Save with today's Gashouse Gang.

Not only will one of today's new gas furnaces give you the heat you need. It'll use a lot less energy doing it.

That's because many of today's models are up to 50% more efficient than those available in the early 1970s and before.

So, depending on your present furnace, it can mean getting 68° of heating for the price of 60°. In some cases, you

could do even better. No wonder then so many of our customers are choosing these new units to heat their homes.

The Gashouse Gang knows a furnace that's that much more efficient will literally pay for itself in the years ahead.

It's a smart way to cut down on the amount of energy you use to heat your home. Without cutting down on the heat.

Today's gas furnaces are giving our Gashouse Gang a lot more efficiency for their money.

Vikes still No. 1 with Waukegan win

The first place Antioch Viking heavyweight football team, led by their solid defense, shut out Waukegan, 26-0, on Sunday, Oct. 24.

The defense held Waukegan to three first downs. Leading the offense was Kirk Tath with three touchdowns, two by rushing with two three-yard runs.

His third touchdown was on a 39-yard pass play from Reserve Quarterback Steve Pappadakis.

The Vikes got their other touchdown when a five-yard pass from Quarterback Mike DoBosh to Dave Wick was completed.

Pappadakis was responsible for the only good extra-point kick.

The Defense was led by Brian Pankauskas, Mike Kneip, Joel Berntand and Lance Besland.

The Viking lightweight team lost to an offensive-minded Waukegan team, 19-6.

Although they were down by two touchdowns at half time, the Vikes played a good second half that was not quite good enough to overcome the Waukegan lead.

In the in-house featherweight games, the Eagles suffered their first loss of the season to the Raiders, whose second quarter safety won the game, 2-0.

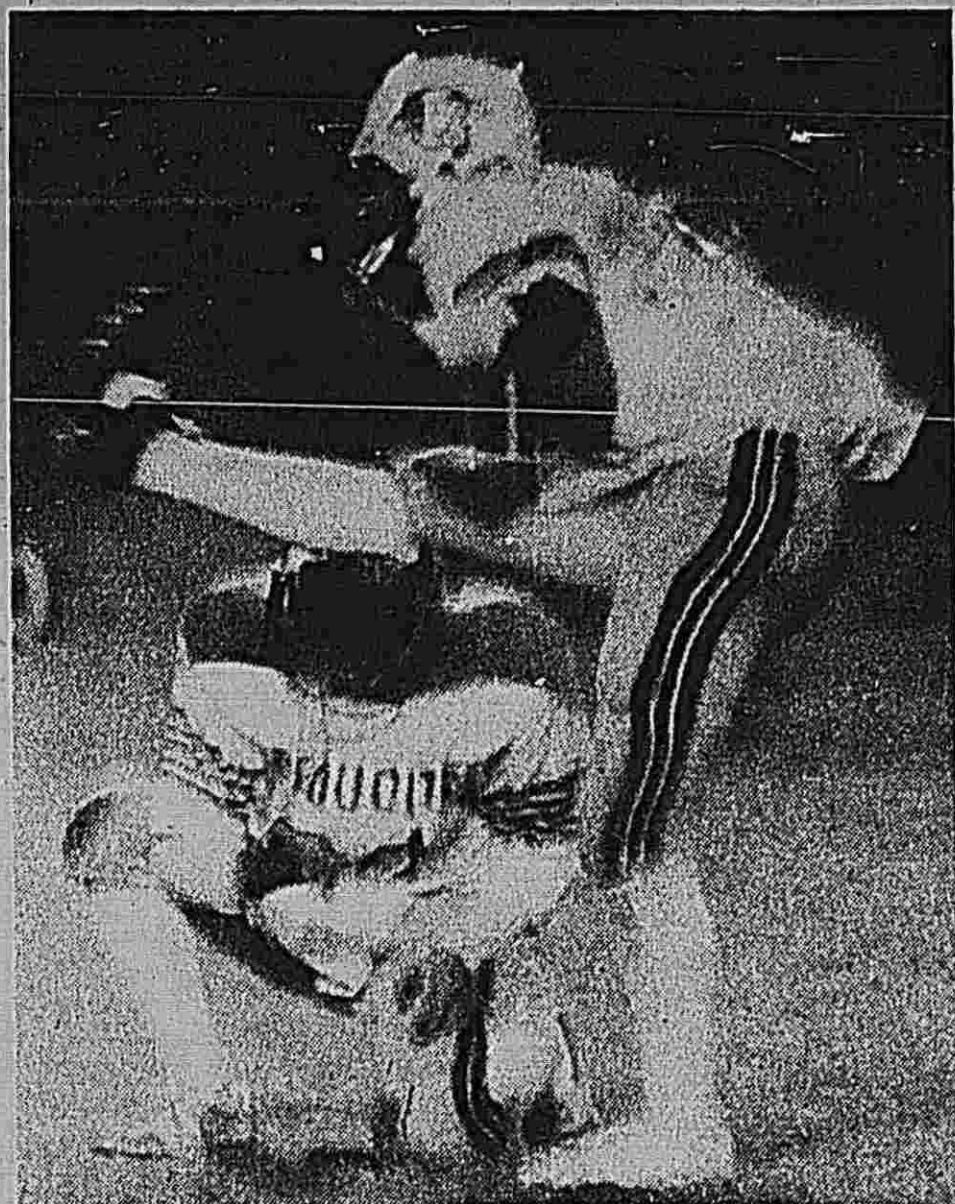

The Warriors blanked the Seahawks, 13-0. Keith Horn made the first score with a 45

yard touchdown run and Jerry Johnson took the ball on a one-yard run for the other touchdown.

The Warriors' win, coupled with the Eagles' loss, sets up a confrontation on Sunday, Oct. 31, when

both teams will meet holding identical 6-1 records. This will be this last Sunday of featherweight play.

The Buccaneers, led by Matt Nagel and Bob Sykes, with two touchdowns each, beat the Falcons, 24-0.

When I think about it

Negation nixing needed

by GLORIA DAVIS

My word for the week is negate. According to Mr. Webster this is the act of making something ineffectual.

With all the work and hoopla that the Reagan administration has been doing on cuts, cutting back, cutting down and cutting out, I wonder if the President and his side kicks are aware of these few negating actions, some taking place right under his nose.

With the federal government coming down hard on student loans because so many previous ones weren't paid back, what about the case of the doctor who billed Uncle Sam for almost \$150,000 in two years for services to Medicare patients etc. when he still owed the government \$2,189 for loans made to get him through medical school?

Doesn't allowing people to get away without paying their just debts to the government partially negate the saving effects of any Medicare cuts?

And I wonder if any of those people that have been busy chopping away at the government's budget are aware that shortly after the Federal Relations Authority spent \$155,000 to redecorate the offices of its three top boys, 47 out of that committee's 351 employees were laid off in a federal economy move?

Now that we've opened up the negating can of worms to be found in the closets of the federal government, how about a few more bureaucratic squiggles?

The National Science Foundation, largely funded by Mr. U.S. Taxpayer, just gave a

researcher \$60,000 to find out why fish fight and \$130,000 went to another federal delver to study the mating habits of the song sparrow.

Now, stop with the smirks, you Democrats, you've done a little negating in your time. With all the budget busting free handouts given by the last few Democratic administrations, Thomas Jefferson must have been twirling in his grave since the founder of that party once said, "To preserve our independence we must not let our rulers overload us with perpetual debt."

And now lets slide our rule down to the state level. I know that many of you, like myself, have spent the nice weather dodging in and out of the equipment of the road repair crews that blossom on our highways every spring.

States are constantly pouring tons of money into its road system and yet are still listening to the truck lobby which keeps pushing for permission to add heavier trucks to the highways.

The problem of the bad roads of both Wisconsin and Illinois is an election issue in both states and yet the trucking lobby still has the ear of many of our legislators.

Isn't this a prime example of negation when the weight of one fully loaded truck, weighing 80,000 pounds, gives a highway the same wear as 9,600 automobiles, and yet the trucking lobby is still pushing to be allowed to run heavier trucks on our roads?

Thanks to Homer Lundeborg, managing director of the Professional Remodelers Assn., for many of these interesting tidbits.

As one person who was looking at McMillen's history said, "Now that's an interesting life!"

ROOT CANAL WORK

Q: My dentist recommends root canal work. Why?

A: What people usually refer to as the tooth's "nerve" is actually a blood and nerve supply called the "pulp."

Now, if the pulp is exposed to the external environment by deep decay, a fracture, or deep gum disease affecting it at the root end, then root canal work is required to save the tooth.

This calls for the removal of all of the tooth's pulp in order to get rid of every bit of infected tissue and save the tooth. Canals inside the tooth are cleaned and then sealed against further contamination and deterioration.

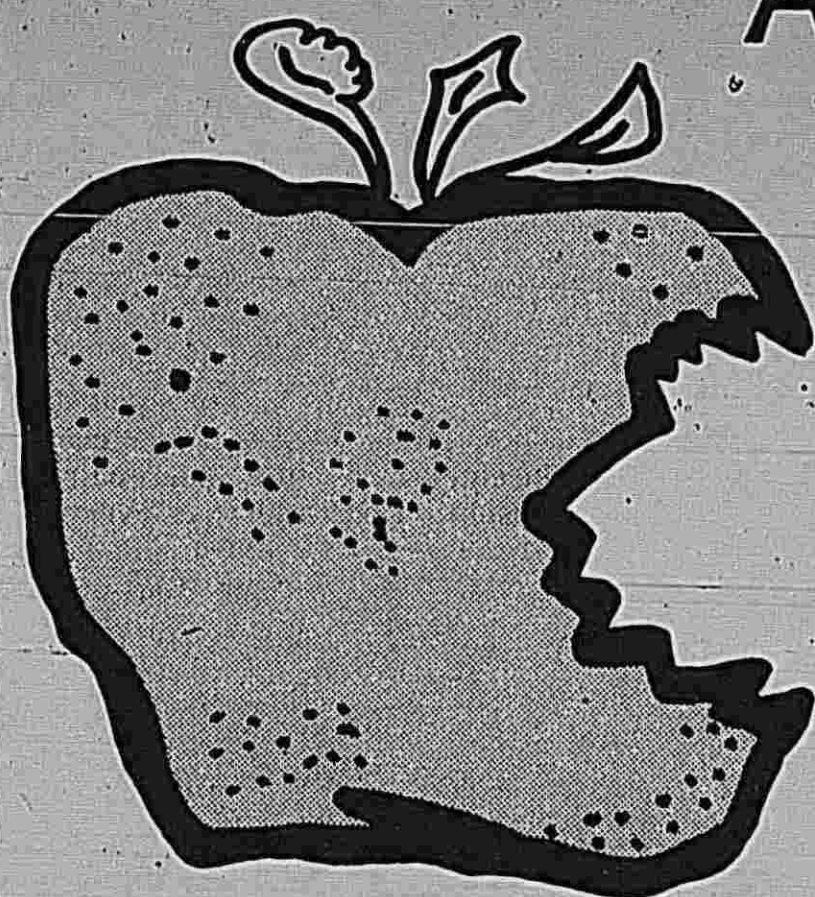

The number of canals per tooth varies depending on where the tooth is located in the mouth. Usually, front teeth have one canal; bicuspids, two canals; molars, three. The more canals, the more complex the treatment. It is unwise to ignore recommended root canal work because you stand to lose the infected tooth or teeth.

Love of hot dogs pays off big!

Little did George Palaske suspect, as he bit into his 50 cents hotdog, that he'd be the winner of a "Hot Weekend" at Caesars Tahoe, in Lake Tahoe. Palaske recently had the distinction of consuming Caesars' 100,000th hotdog, and for that he was awarded complimentary accommodations for two nights at Caesars Tahoe, dinner for two in the hotel's Polynesian restaurant, the Paradise Cove, and a single day's executive membership in the Alpine Health Club, all ad-

ding up to a "Hot Weekend." Palaske is a semi-retired house mover from Antioch, who was on vacation at the time he purchased number 100,000.

"This is just great!" he beamed. "And what a deal for 50 cents. You can't beat it," he added.

Since Caesars Tahoe first began serving hotdogs in the casino, some amazing numbers have amassed. Hotdog sales in the first ten weeks have included the following astounding statistics: 100,000

hotdogs and buns have been sold, that's an average of 1,428 hotdogs every day!; 1,628 pounds of relish; 1,016 pounds of mustard; 840 pounds of red onions and 660 pounds of ketchup.

Affectionately known as "slot dogs" to some patrons, the frankfurters sold would total 12.63 miles if laid end to end.

WINS-TAHOE WEEKEND — George Palaske, left, semi-retired house mover, Antioch, receives certificate for "Hot Weekend" at Caesar's Tahoe, Lake Tahoe, from Casino Supervisor B.J. Cossey.

Point error results in new race champ

A mathematical error in the calculation of the late model sportsman point standings has resulted in a break of the original tie for the Wilmot Speedway season championship.

The two point difference, which was found during the calculation of point fund money, results in Jim Zwirgdas of Paddock Lake being the sole champion.

Zwirgdas, 1979 track champion, wins his second title by two points, 1,063; 1,061, over Chuck Ostergaard of Antioch.

The announcement of the change was made by Ray Toft, president of Toft Auto Racing Inc. which promotes

the speedway.

"It's a simple mistake," he said. "We're glad it was found now instead of later."

The error was traced back to the May 8 program at the speedway in which Ostergaard was mistakenly awarded two extra points.

The mistake was found during the routine checking of points prior to award the point fund checks.

The annual Toft Auto Racing "Night of Champions" is scheduled for Friday, Oct. 29 at Eddie's Wonder Bar in Twin Lakes.

Limited tickets are available at \$10 each from Toft Auto Racing, 375 Harden, Antioch 60002.

INSIGHT INTO EYESIGHT

Dr. R. A. Sona, OPTOMETRIST

"INVISIBLE" BIFOCALS

Most bifocal glasses have a visible line separating the two kinds of eye correction. Others have no visible line, just a blending separation that only the wearer can discern. Which is the best kind for you?

Some people feel self-conscious when they first start wearing bifocals. For a long time they've only had one vision problem, such as nearsightedness or farsightedness. But with middle age, many people need help reading because their eye-focusing mechanism is not as efficient as it used to be. So they need glasses that correct for both problems.

If you don't want the world to know you're wearing bifocals, you can wear the kind that look just like ordinary glasses. The dividing line between the two sets of vision correction is ground down so that it's not noticeable to other people. You'll notice a blurred area when you switch from the upper to the lower part of your lens or vice versa. It's all a matter of personal preference.

Landfill dilemma topic of public waste forum

As a form of followup to a survey conducted earlier this year, the League of Women Voters of Lake County has scheduled a Hazardous Waste Forum.

The forum, which will be open to the public, will be held at 7:30 p.m., Tuesday, Oct. 26 at the Cook Memorial Library, Libertyville. Featured speakers will be Illinois League of Women Voters Natural Resource chairperson, a spokesperson from the Illinois Environmental Protection Agency and a spokesperson from the Illinois Pollution Control Board.

Earlier this year, the League sent out a questionnaire on solid waste disposal to mayors, township supervisors, county board members and candidates. While all have not yet been returned, approximately 25 percent of the 130 sent out have been returned and tabulated.

According to Cari Seveik, Lake Bluff, chairman of the natural resources committee, results show that those replying are "clearly aware of and concerned about the problem."

However the survey shows "little agreement on how it could most effectively be solved."

"Almost everyone feels the county board to be an appropriate government body to tackle the job, but opinions on choice of site, use of technology, financing and whether the county should own and operate its own facility vary considerably," she explained.

Suggestions on where more land for landfill sites should come from in Lake County included acquisition of open land in sparsely populated or industrial areas, or using forest preserve land. Possible incentives for siting a landfill included

planned recovery for recreational use as in DuPage County or tax exemptions and tipping fee rebates to the local community as well as control of what is disposed of and by whom.

Two most often suggested possibilities for county responsibility were that the county should own and operate the site, or that the county should purchase a site and contract out the operation. The need for cooperation between municipalities and the county was stressed.

A majority of respondents wanted to use forest preserve land, while a minority thought further study was needed or that forest preserve could serve to buffer houses from a landfill. Another minority felt that no such use should be made of forest preserve property.

Most agreed that

municipalities must be involved with the county in any effort to solve the disposal problem.

There was also a strong consensus on the desirability of regional cooperation but none on how it should be obtained.

At-source separation by individuals, municipalities

and scavengers was strongly favored, with responsibility for such separation to be shared almost equally among all three.

A majority favored a resource recovery plant while a strong minority approved of such a plant, but only at no cost to the public. Opinion was divided on who

should own and operate such a facility. Some feel the county should be responsible for the plant, others prefer private industry, while some envision a joint effort.

A minority felt no emphasis should be placed on a recycling recovery plant because, historically, such operations have not proven cost effective.

ACHS Board discusses NSC competition

Antioch High School (ACHS) Board Member Glen G. Moore was appointed as the delegate to the Board of Education to the Illinois Assn. of School Board Assembly meeting in Chicago Nov. 20, at the last regular meeting of the high school board on Oct. 21.

Principal Art Blecke reported plans for the homecoming show on Friday night, Oct. 29, at 7:30 p.m. were progressing smoothly. He reported a special feature of the program will be the participation of 19 former ACHS cheerleaders, vintage 1940's to 1950's. The group has been organized and choreographed by Mabel Lou Weber.

In other business the board reviewed recommendations by Blecke concerning additional athletic competition resulting from our change in conference affiliations from the Northwest Suburban Conference to the North Suburban Conference. Included are girls' freshman volleyball, basketball and softball plus boys' soccer.

ACHS sports competition will be in the North Suburban Conference as of the 1982-83 school year.

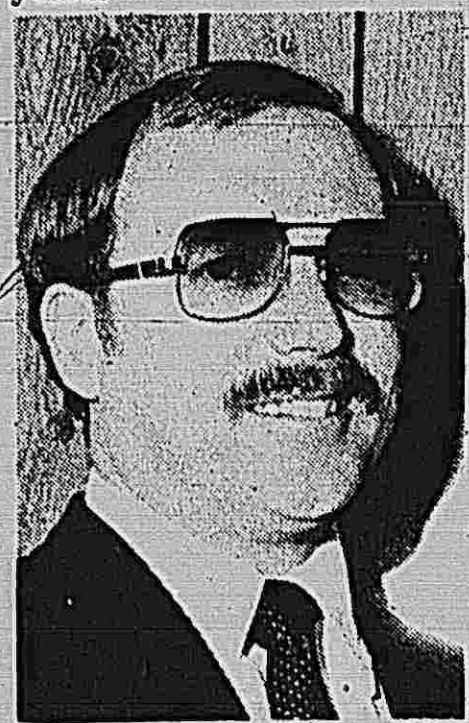

The board received information on the final plans in preparation for the North Central Assn.'s on site visitation on Dec. 8, 9 and 10.

Voters Information Guide

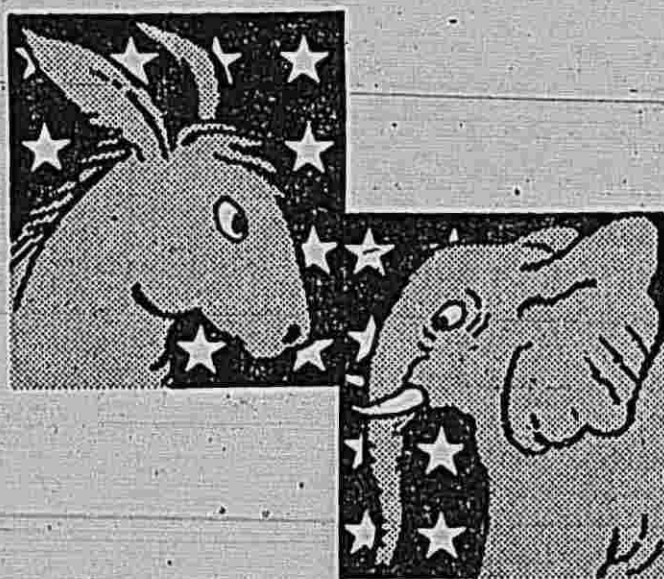

WRITE-INS MADE EASY

The new type of Ballot used at the 1982 Primary Election will be used again at the 1982 General Election. The extended Stub on this new Ballot Card presents the voter with an opportunity to cast a Write-In Vote on the Stub. Formerly, you recall, such a vote was written on the Ballot Envelope, no longer used.

In order to cast a Write-In Vote (for a candidate whose name is not on the Ballot) The Voter finds the space on the Ballot Stub labelled "THIS SPACE FOR WRITE-IN VOTE", and proceeds as follows:

☒ County Board Member, District 1 Wilbur Watchdog

After the closing of the Polls, the Judges of Election examine the Ballots and certify the Write-In Votes. Each must be complete with the name of the Office, the "X" in the box to the left of the name, and the candidate's name. Note that the Write-In Vote for a candidate whose name is already printed on the Official Ballot for that office, will not be certified.

Locate your political address by finding your location on the maps on Page 2. Note your Congressional, Legislative, Representative, and County Board Districts. As you examine the Ballot Pages, you will be able to identify the pages you will vote on November 2, 1982

ELECTION NIGHT RESULTS

In past elections Lake County has provided election results in various ways - from manning the telephones to displays in the County Building Lobby. With each election, advances have been made to enable the County Clerk's Office to make public election results in a fast, economical and efficient way.

One such advancement that took results from tote boards and overhead projectors was the use of computer terminals located throughout the Lobby. With these terminals, results would be obtained on all races throughout the County. This was an up date tally that changed immediately after each precinct was counted.

Though this was a major change, it was still felt that a better method could be devised - one in which everyone could see results easily from throughout the Lobby. Advancement in technology has enabled this program to be used on November 2, 1982.

Located through the Court-house Lobby will be a number of large screen color television sets. With the use of these sets, results from contests will be clearly visible. Updates in state wide contests and any other election related information will also be provided. The same information provided by computer terminals will be accomplished, but in a better format. Realizing that the County Building is not centrally located in the County, the County Clerk's Office will also provide election results in various Township Assessor's Offices through the use of computer terminals. To find out which offices will be available, call 689-6628.

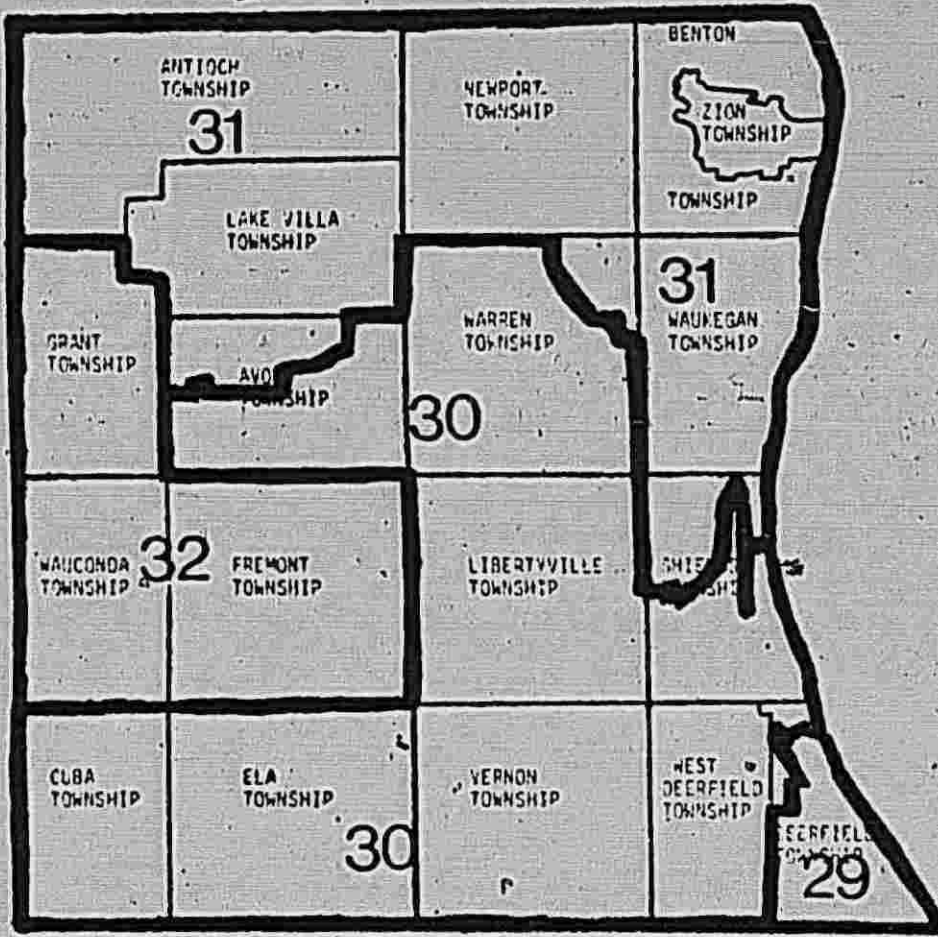

For election results on November 2, 1982, the north door of the County Building will open at 7:00 p.m. to the general public. Results can also be obtained by calling 689-6628.

NEW DISTRICTS — NEW MAPS — NEW FACES

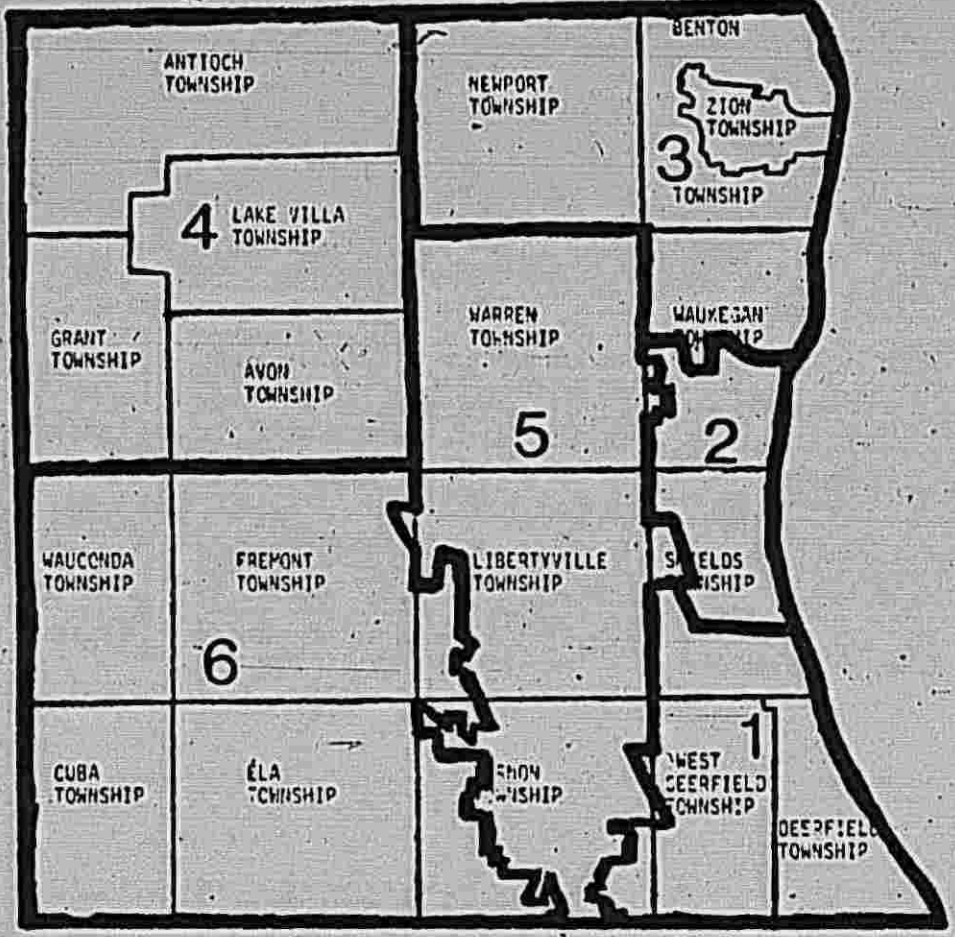

Following the dicennial census in 1980, all Electoral Districts have been re-drawn. Congressional boundaries (and in some cases, Congressional Candidates) are different in 1982. Representative Districts have been reduced in size by one-third. In Lake County there are six Representative Districts from which one will be elected for the General Assembly. The Legislative Districts, of which there are four, will be composed of two of the Representative Districts. One State Senator will be elected from each Legislative District.

You will note also that the County Board has drawn new District lines making six nearly equal territories instead of the five we have had for the past ten years. The Board will be composed of 24 members starting in December of 1982 - 4 members to be elected from each of the six Districts.

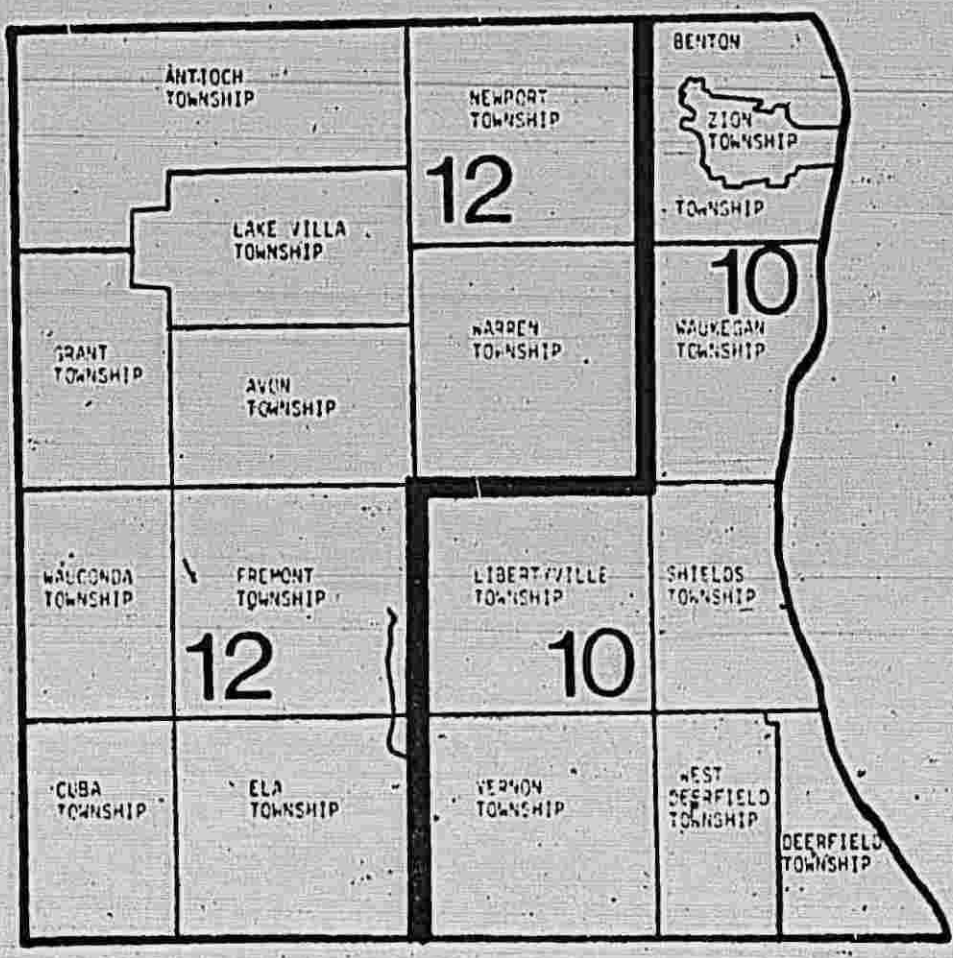

Examine the maps reproduced below which clarify your new voter address - your new Congressional, Legislative, Representative, and County Board Districts.

HOW TO USE THE VOTOMATIC

Once you have received your Ballot Card and have been directed to the appropriate Voting Booth, you are ready to vote for the candidates of your choice.

Using both hands, insert the Ballot Card all the way into the Votomatic. Be sure that the two holes in the Ballot Stub fit down over the two red pins. If the words "Wrong Side" are facing you, take the Ballot Card out and start again.

Using the attached punch - DO NOT USE A PEN OR PENCIL - in a vertical position punch straight down through your Ballot Card to indicate your choice.

When you have concluded voting every page, turn the Ballot Booklet back to the beginning for the next voter, and gently remove your Ballot Card from the Votomatic.

If you care to cast a Write-In Vote, follow the directions posted in the Voting Booth. The Write-In Votes must be placed on the Ballot Stub in the area marked "This Space for Write-Ins".

When you have finished voting, place your folded Ballot inside the Ballot Folder - make sure that the fold of the Ballot card is at the top. Hand your Ballot to the Election Judge at the Ballot Box. He/She will check for Judge's Initials located on the fold and deposit it in the Ballot Box.

If you happen to make an error and catch it in time (before the Ballot is placed into the Ballot Box), you may return your "Spoiled Ballot" for a fresh one and start again.

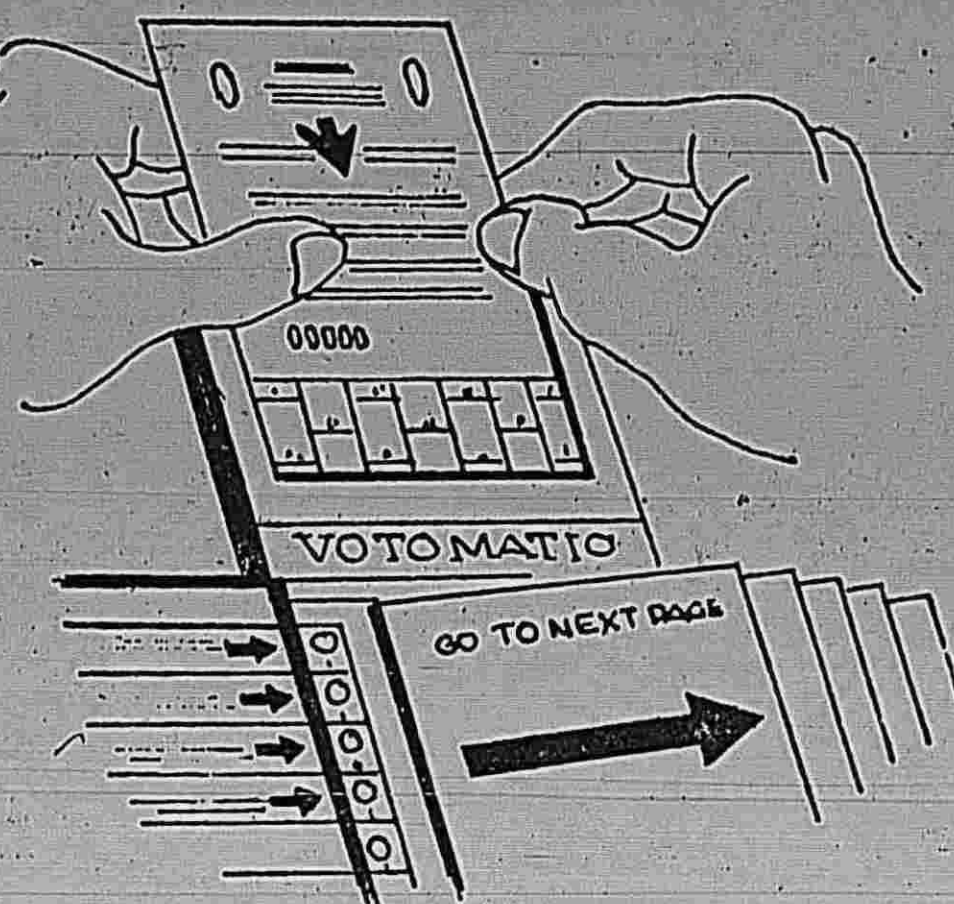

Illinois Law requires that the names of candidates for the University of Illinois Trustees be rotated on the Ballot according to Congressional District. Thus, the name which leads the others on the Ballot Page used for the 10th Congressional District will be in a different place on the Ballot Page for the 12th Congressional District.

SPECIAL NOTE.

IF YOU MAKE A MISTAKE,
RETURN YOUR CARD
AND GET ANOTHER.
